## COMPARE TO PREVIOUS MONTH

# MONTHLY HIGHLIGHTS

In February, Hemet Police Department Explorers competed at ExCon, a national competition hosted by the Las Vegas Metropolitan Police Department's Law Enforcement Explorer Program. Nineteen departments from across the country participated in realistic, scenario-based events designed to test patrol skills and decision-making. Hemet's Explorers demonstrated outstanding teamwork and professionalism, earning 3rd Place in the Burglary in Progress scenario. The department is proud of the dedication and composure they showed while representing the community on a national stage.

The Hemet Police Department welcomed Alexis Hoffman, MSW, ACSW, as the newest Clinical Therapist with the Community Behavioral Assessment Team (CBAT). Alexis earned her undergraduate degree from the University of California, Riverside, and her Master of Social Work from the University of Southern California. She brings valuable experience working with individuals in crisis and previously served on a co-respond team alongside campus police. Partnering with Officer Martinez, Alexis will help provide compassionate crisis intervention, connect individuals and families with local resources, and support the department's mission of serving the community with care and professionalism.

Students from West Valley High School recently visited the station for a behind-the-scenes tour to learn more about the day-to-day operations of our department. During their visit, they had the opportunity to meet officers and professional staff, explore patrol vehicles and equipment, and learn about the many roles that help keep our community safe. We always enjoy connecting with local students and sharing a closer look at careers in law enforcement and public service.
